E-LEARNING COURSE ON MEMBERSHIP STRATEGIES FOR EBMOS

12 APRIL – 4 JUNE 2021

 8 WEEKS, 64 HRS

Information Note

Employers and Business Member Organizations (EBMOs) must be representative of the different segments of the private sector to voice the employers' standings and be able to influence socio-economic policies. Large membership is the result of well-functioning EBMOs, providing for high quality services for members and exerting strong policy influence. To achieve this virtuous circle, one condition is to implement an **efficient membership strategy**, which conceptualize, plans and directs EBMOs' actions to properly attract, retain, expand and engage members. This is even more urgent in times of economic crisis, when companies struggle to identify the benefits of adhering to or engaging with collective bodies and be inclined to leave organizations for which the value of membership is not compelling.

This in-depth online training builds and strengthens the capacities of EBMOs staff and Board members to design and implement efficient membership strategies. The training offers an **innovative e-learning platform** for **hands-on knowledge, transmission and exchange of experiences** between employers' organizations representatives from all over the world. It is a specialized course which enables you to join a virtual network of practitioners flexibly and without needing to travel.

The course includes 8 progressive online modules offered through the ITCILO e-Campus online platform to be completed from **12 April to 4 June 2021**, for a total of 64 learning hours (equivalent to one day a week). The course comprises different learning elements: (i) **individual learning** "at your own pace" with weekly thematic modules; (ii) **exchanges** with peers and experts during "live interactive sessions"; (iii) **group assignments** to go deeper in small groups with a dedicated tutor.

Participants who successfully complete all modules and the final assessment receive the ITCILO digital **Certificate of Achievement**.
